World famous photographer, Barrie Schwartz, has travelled the globe entertaining and informing audiences about the Shroud. He is featured in the Discovery Channel production "Unwrapping the Shroud", partially filmed in Alamogordo. His photos are featured in the "National Geographic" June 1980 issue and in nearly every documentary and publication concerning the Shroud since 1978. Barrie was the featured guest at the grand opening of the Shroud Exhibit And Museum in 2009. He was featured recently in the "Catholic Digest". On his most recent tours, he presented at the Vatican University, in Poland, to cloistered nuns, and many European audiences. We are truly blest with the return of Barrie to our Shroud museum in Alamogordo. This promises to be one of the most delightful and informative Centennial History events in our community.

**Dr. Petrus Soons returns to Alamogordo as a bonus feature to presentations by Barrie Schwartz on May 26 and 27, and in a  
SPECIAL EVENT FRIDAY, JUNE 1, 6PM IN SPANISH and REPEATING AT 8PM IN ENGLISH**

Dr. Soons is most famous for his 3D imaging of the Shroud based on the discovery made in New Mexico in 1976, but employing current technology to make this aspect of the Shroud viewable in 3D without the use of 3D glasses. He has produced a hologram and models from the Shroud. These are featured in Shroud exhibits around the world. We are truly blest by his return to Alamogordo. He is continuing his studies of the Shroud using the instruments and images on loan by Deacon Pete Schumacher and Susan Wagner to Shroud Exhibit And Museum. The collection on loan is a large portion of the materials and instrumentation preserved by Deacon Pete over the course of his involvement with the Shroud since 1976.

**Tickets for Dr. Soons Special Event are \$5 Each. Buy at the museum, or at [www.ShroudNM.com](http://www.ShroudNM.com) or Phone: 575-446-2113**
