DCN ANDY encountered the Shroud in Colorado in 1998 & at SEAM in 2009. Asked before either was ordained to create SEAM online (iSEAM), he contributes extensive Shroud & VP8 presentations, *Shroud & Zechariah* reflection, photo editing & other writing. SEAM is known around the globe with over 76,000 visitors from 107 countries.

DCN ANDY encountered angels and his Guardians through his wife and, after 18 months of research, has compiled an exciting set of talks he has given at SEAM & several Churches in his area. [Contact him](#) if interested in a three-set DVD.

SHROUD research continues at SEAM by Dcn Pete Schumacher and other world renown researchers. His 2014 study was presented at an international conference on the Shroud. Much of Dcn Pete's study uses SEAM on-site resources, a 501(c)3 NM Corporation listed in the Catholic Directory located in Alamogordo, NM.
