Shroud Exhibit and Museum, Inc. (SEAM) has been very successful in bringing the Shroud to the public. We are now ranked number 6 of 11 attractions in the Tularosa Basin of New Mexico. Guests have come to the museum from as far as Panama, Central America, France, New York, Illinois, Indiana, and many places in the southwestern United States. In 2012, we welcomed over 3000 visitors. All have expressed positive comments of appreciation in our guest register. Our web site has enlightened tens of thousands of visitors, providing in-depth information to people around the World. Many may never be able to come to SEAM in New Mexico. Numerous people have returned to their faith through SEAM exhibits.

In 2012, we held three New Mexico Centennial events featuring world renowned experts on the topic of New Mexico's connection to the Shroud of Turin. Presentations were simultaneously streamed live on the Internet to world audiences, free of charge. Shroud Exhibit and Museum (SEAM) was featured on a nationally syndicated radio show and was interviewed on local radio talk shows.

The NM centennial events made statewide news and were recognized on several international web sites and blogs. Portable, on-site presentations were given at Western New Mexico University in Silver City, and at many civic and social organizations in our area.

World famous Shroud researchers John Jackson, Barrie Schwartz, and Dr. Petrus Soons, gave permission to make DVD productions of their presentations available as historic centennial collectible items. These are also of great value to Shroud historians and scientific investigators. These events reviewed the 1978 Shroud of Turin Research (STURP) expedition, the world's largest expedition ever launched to study a single artifact was formed in New Mexico. It happened because of a scientific proof discovered in New Mexico. It involved more scientists and others from New Mexico than any other single place in the world. It was a major event in New Mexico history.

SEAM volunteers give presentations at schools, secular, and religious venues. We have welcomed foreign visitors to the White Sands area, presenting Shroud information in 16 different languages.

Nobody is paid to work at SEAM. It operates solely by volunteers. Admission is free. The site we occupy is in the local business district donated by friends to the museum. That space and all utilities are paid by SEAM, a non-profit 501-c-3 NM corporation. Tour groups are given special attention. We feature interactive 3D displays demonstrating the 1976 proof discovered in Albuquerque. We announce the Shroud to all.

We believe we are operating on Holy Ground, "an occasion of grace in a secular place"©, and "an oasis of grace in the desert of New Mexico". © We need your help. Can you spare a donation to help us operate, maintain, and develop this treasured gift? Many people have been brought back to their faith through SEAM exhibits and presentations. Please help us to help others learn about the wonderful, mysterious Shroud, and the "Man Who Was Within". Your donation will help us in this endeavor.

Please use the "Donation" button. Thank you for your generosity. Prayers and blessings to all.
